Since our inception, John A. Martin & Associates of Nevada has successfully completed over 10,000 engineering projects. Many have entailed expansion of previous designs to accommodate our clients' growth. Our senior design professionals combine over 500 years of proven experience in structural engineering design. Our various senior personnel have experience in engineering design, construction/project management and as owners' representatives. We are also experienced in providing a better understanding of how a project comes together and the benefits of a properly engineered and coordinated document package.

*In 1953, John A. Martin & Associates began work on the firm's first large project – The Fremont Hotel and Casino in Las Vegas, Nevada.*
